HOW DOES IT WORK?

With Buy Any Light (BAL) by your side, ordering your lights from BAL is as simple as 1, 2, 3... And if you need any help, our expert team is always on standby to answer any questions.

Step 1

Create your BAL account.

Step 5

Pay the one-time subscription.

Step 2

Subscribe to the package for your project.

Step 6

Confirm your order.

Step 3

Submit your enquiry and await your quote.

Step 7

Make your payment.

Step 4

Receive the quote and, if you wish, request samples.

Step 8

Receive your order and enjoy your new lights (not to mention the great savings)!

INTRODUCING BUY ANY LIGHT (BAL)

BuyAnyLight (BAL) is the first platform that's designed exclusively for sourcing LED lights. With the help of BAL, homeowners like you can now source great quality, low-cost LED just as the experts do, thanks to our simple, no-hassle support and intelligent system. We believe in great service that's professional, honest, jargon-free and super-efficient. Simply choose a package and upload your requirements. Then just sit back and let our lighting professionals handle the rest!

BAL analyses your requirements and presents you with an individually tailored solution and a superb quote. One of BAL's many advantages is that our prices are significantly lower than those you'll find anywhere in the world. What's more, we provide world-class deliveries to your doorstep!

Because we're confident that we offer the best deal globally, we don't charge you a single penny until you decide to accept our quote. Homeowners like you no longer have to pay premium prices to source LED lights from local lighting companies: with BAL, you get the best products, the lowest prices, and the finest service in the industry.

QUICK OVERVIEW

Check out some of the benefits you get from using the service of BAL:

- **Zero Risk**

It's true - the BAL platform is designed to put homeowners at zero risk with their orders. With no upfront payments, world-class lighting solutions and the lowest possible prices, BAL also gives you complete peace of mind.

- **Concierge Level Support**

We understand that many homeowners have limited LED lighting knowledge. That's why we have a support expert standing by to guide you through the entire procedure, from submitting your requirements to receiving your LED at your door.

- **The Best Prices**

When we said that BuyAnyLight offers the best possible price in the world for LED lighting around the world, we meant it. By using BAL, you'll save up to 90% compared to sourcing your LED lights through other channels.

- **Hassle Free**

The BAL online system is beautifully easy to use. Simply choose a package, upload your requirements, receive your BAL quote, approve and make the payment, and your beautiful new LED lights will arrive at your doorstep!

Why is BAL the best lighting solution option for homeowners?

Using generic lighting in this post-millennial age is like travelling by horse in the 21st century! Your home deserves a custom lighting solution using LED lights that are energy efficient, eco-friendly and save you lots of money on electricity bills. Unfortunately, most homeowners are not lighting experts, and the quotes they receive from local lighting companies are far too high. We've created BuyAnyLight to change all that...

At BAL, we are lighting specialists and our goal is to provide you with the best lighting solution for your home at the best possible price. Once you upload your lighting project requirements, our experts swing into action. We provide you with the best products that will meet all your lighting objectives, and crucially - at a fraction of the quotes you'd receive from local lighting companies.

But BAL doesn't stop there. We offer you the option of a one-to-one consultation with a lighting expert who can help you with any unique needs of your project. BuyAnyLight is a one-stop-shop that caters for the lighting needs of novices and experts alike.

BAL Online vs. Others

The service of BuyAnyLight is far superior to any other lighting solution anywhere, from local shops to online marketplaces. Here are a few factors that set BAL light years apart from our competitors.

BAL PLATFORM

CONVENIENCE

The time you spend on sourcing for lights is significantly reduced because we send you the best quotes that meet all your requirements.

THE BEST PRICES

With our huge buying power and great relationships with world-class manufacturers, BAL LED lights are significantly cheaper than any other suppliers.

A WORLD OF VARIETY

With our global network of lighting manufacturers, we can easily meet your exact requirements from all the world's top brands.

FAST TURNAROUND

Your project proceeds much more quickly when you source your lights with BAL. We give you the best prices in a single quote and deliver the goods to your doorstep. It's that simple!

SECURE

BAL gives you a 100% payment protection guarantee. Your payment is secured with BAL until you receive the goods. BAL acts as the trustee for every transaction, so your funds are safe with us.

WORLD-CLASS LOGISTICS

BAL makes sure that all your orders are handled with ultimate care and security. We promise on-time delivery with a live shipment tracker.

LIGHTING COMPANIES

MUCH HASSLES

Why waste time looking at one lighting store after another and comparing products and prices from vendors who don't have your best interests at heart?

PAY MORE

Other suppliers charge much higher prices than BAL because they sell at a high margin to cover their high overheads and business costs.

LIMITED OPTIONS

Other sources will offer you only the brands they have in stock whether or not they are your ideal solution.

TIME-CONSUMING

Other online platforms demand that you compare multiple quotes from different sources. You'll also have to inspect the products and negotiate prices because their first quote is unlikely to be their best!

HIGH RISK

With other companies you risk being scammed or short-changed with your goods, payments, deliveries, quality or warranty, etc.

INFERIOR LOGISTICS

With order tracking a rarity, keeping track of everything can be a nightmare, especially with partial deliveries.

BAL Package: MY HOME

BuyAnyLight (BAL) charges a one-time project fee that's only payable when you have approved our quote and decide to source your lights from us. We also charge a 10% commission on the total value of the project.

Do these charges amount to a higher cost to the homeowner?

Absolutely not! Very often, the deposit required by local lighting shops or suppliers will be more than the TOTAL COST of lighting solutions from BAL. You have everything to gain and nothing to lose when you choose to work with BuyAnyLight!

MY HOME NO UPFRONT COSTS & FREE QUOTATION
