Maximum: \$1,000,000 USD

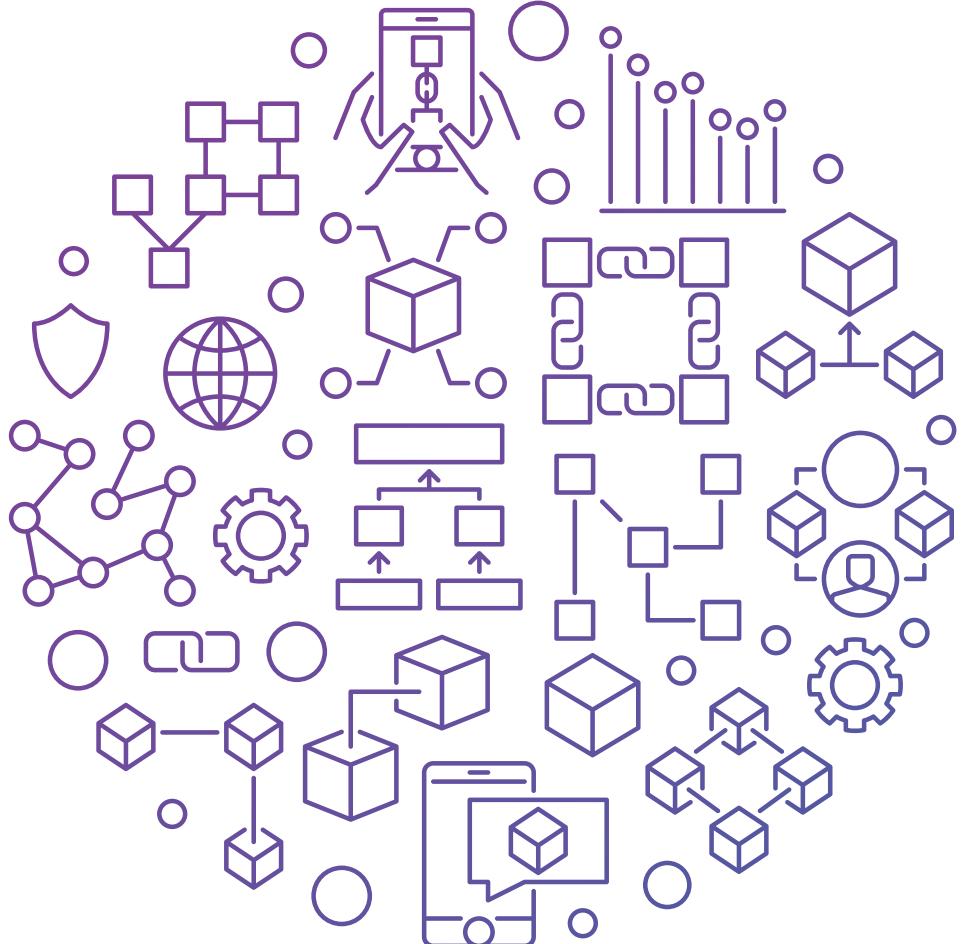

Accepts: BTC, ETH, EUR, USD

BAL EQUITY INVEST

Minimum \$1,100,000 USD

Maximum: \$6,000,000 USD

Accepts: BTC, ETH, EUR, USD

WHAT THE FUTURE HOLDS FOR TOKEN BUYERS

The future is bright for BuyAnyLight. We are confident that our Project that harness the power of blockchain, AI, and smart contracts will revolutionize the global LED industry. For those who want to contribute to this cause we will be happy to discuss financial projections and potential growth of the BuyAnyLight ecosystem. Contact us today at: invest@buyanylight.com

INDUSTRY PROBLEMS

The problems faced by the LED lighting industry include:

HIGH COSTS

The middlemen, retailers, payment processors, and e-commerce platforms charge hefty fees which add to the overall costs.

TECHNICALLY DIFFICULT

Few buyers understand the technical aspects such as lumens, CRI and IP, which may result in buying the wrong products.

LACK OF TRUST

A trust deficit exists because buyers pay and then receive defective or sub-standard products, or do not receive what they ordered at all.

OUR SOLUTION

We harness the power of blockchain, AI, and smart contracts.

This guarantees that buyers and sellers get the right solutions in a cost-effective way.

FAIR PRICING

The BAL Platform allows fair pricing not only by introducing a decentralized payment method, but also by eliminating the role of middlemen.

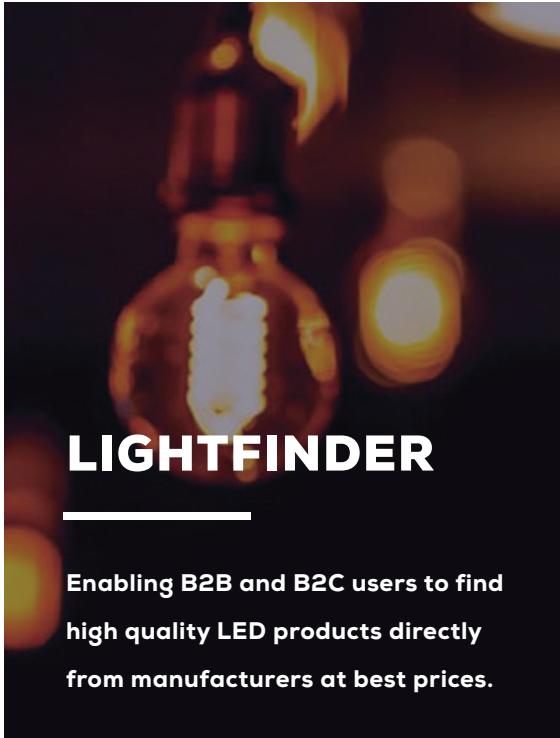

EXPERT ADVICE

Our agents with deep industry expertise select the perfect lighting products especially chosen for your needs.

TRUSTLESS

All transactional activities on the BAL Platform are managed and executed by trustless smart contracts, eliminating the need for middlemen.

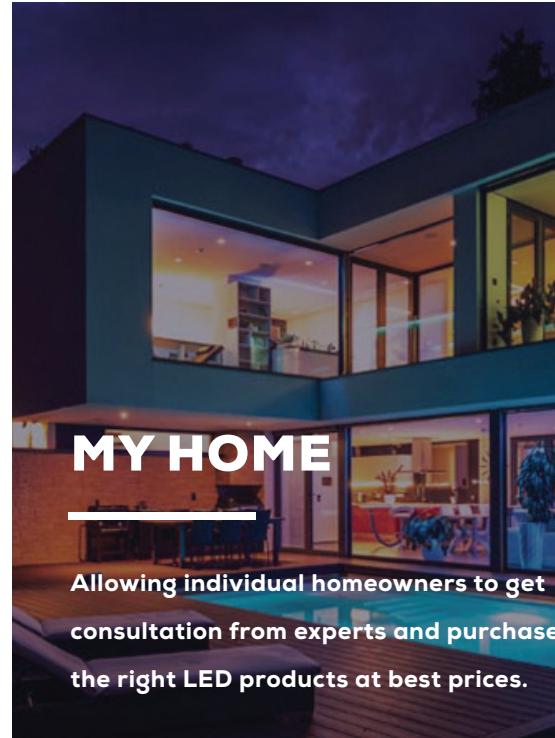

KEY PRODUCTS

A close-up photograph of several glowing LED lightbulbs, showing their warm, yellowish glow against a dark background.

LIGHTFINDER

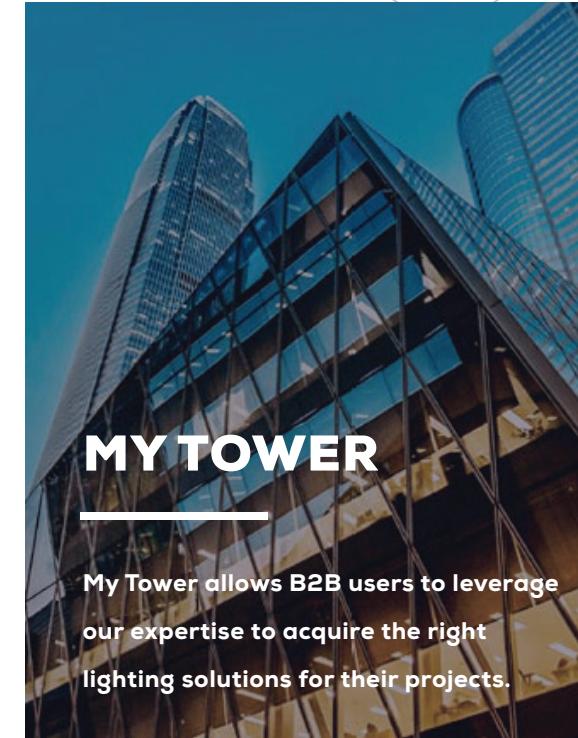

Enabling B2B and B2C users to find high quality LED products directly from manufacturers at best prices.

A photograph of a modern, two-story house at night. The large windows are illuminated from within, showing a brightly lit interior. The text "MY HOME" is overlaid in white.

MY HOME

Allowing individual homeowners to get consultation from experts and purchase the right LED products at best prices.

A photograph of a modern skyscraper with a glass and steel facade. The text "MY TOWER" is overlaid in white.

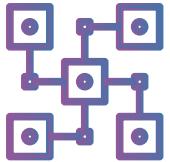

MY TOWER

My Tower allows B2B users to leverage our expertise to acquire the right lighting solutions for their projects.

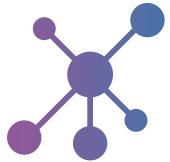

HOW WE USE BLOCKCHAIN

Smart contracts enables trustless execution of orders and payments, helping us eliminate the middleman.

We use blockchain technology to improve supply chain transparency and monitor provenance.

BAL works as a decentralized platform where control lies with the community.

Trustless dispute resolution enabled by smart contracts.

THE BAL TOKEN

An ERC-20 based utility token deployed on the Ethereum network that allows users to send, receive, and exchange value in a peer-to-peer, trustless way at reduced costs.

Decentralized

Transparent

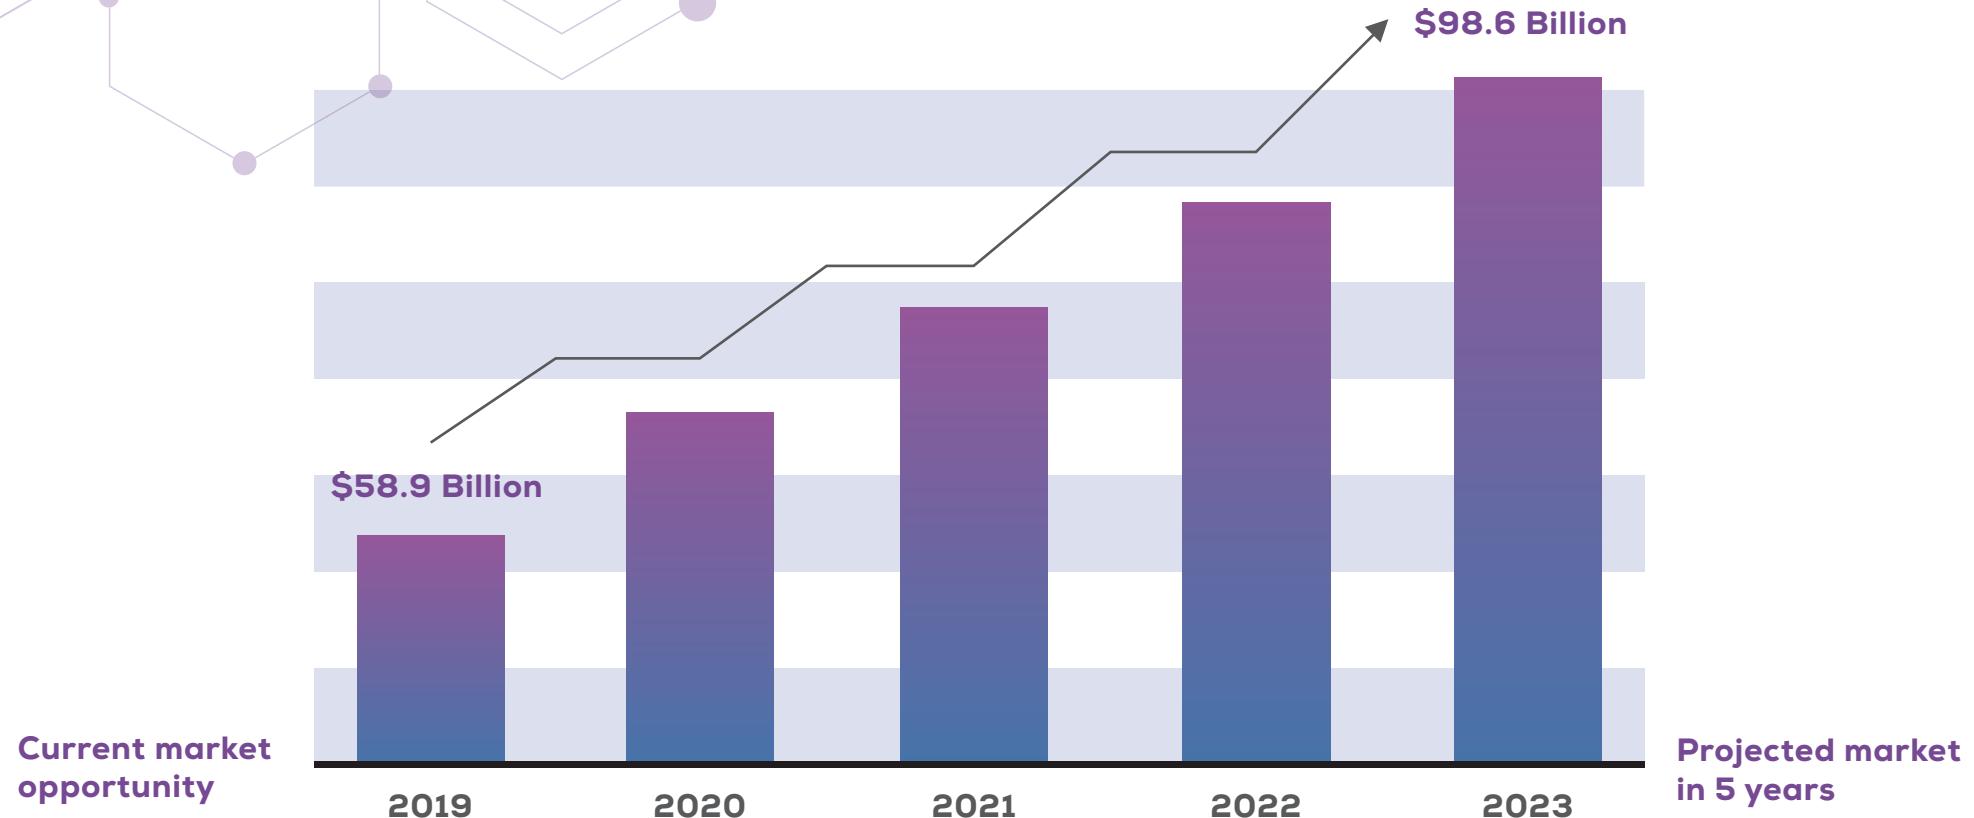

Portable

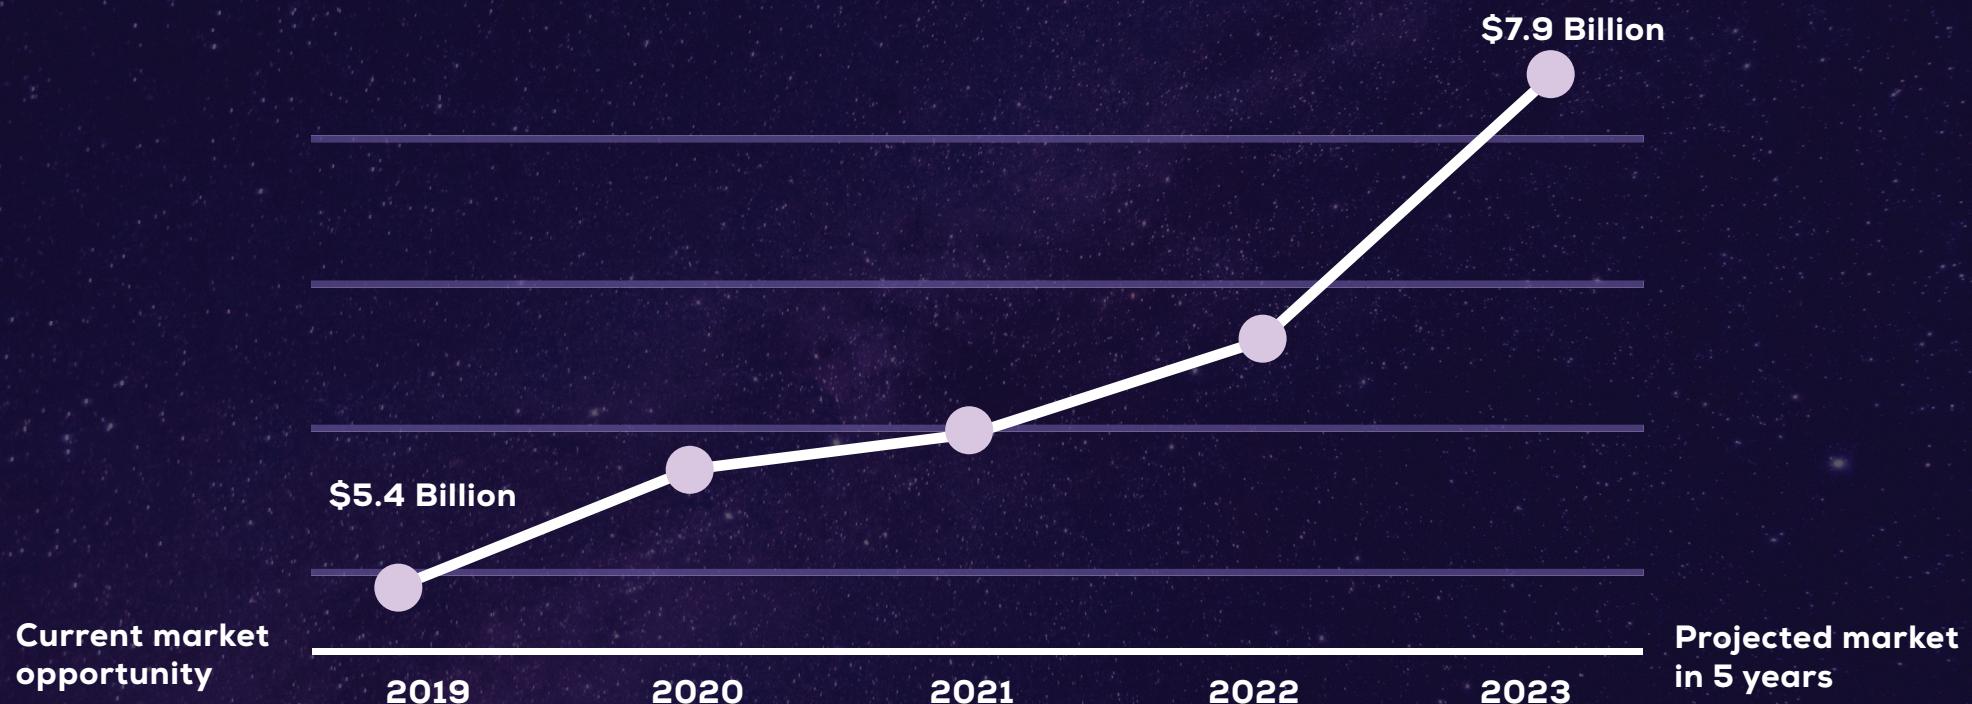

Secure

WHY CHOOSE BAL?

- Ready to use platform
- Powered by blockchain, AI, and big data
- Early Discounts
- Industry expertise
- Existing infrastructure and technology
- First-to-market-mover advantage
- Founded and funded by industry pioneers
- Seed Round Allocation successfully completed
- Community participation enabled by IEO
